-

Experience

CRM Technical Developer - Wipro

Nov 2023 - Present

- Built backend services and REST APIs using ASP.NET Core, C#, and EF Core.
 - Connected APIs with CRM modules to support automated business workflows and data processing.
 - Worked with SQL queries and stored procedures, including basic performance tuning.
 - Created simple React components for CRM related user screens.
 - Managed builds and deployments through Azure DevOps CI/CD pipelines.
 - Supported debugging, requirement understanding, and production issue fixes alongside the functional team.
-

PROJECTS

RentAPlace - Property Rental Platform (2024)

Built using ASP.NET Core Web API, SQL Server, React, JWT, role-based access, image uploads and dashboards.

AWS Migration with Auto Scaling (2023)

Migrated website infrastructure to AWS using EC2, RDS, ALB, and Auto Scaling to improve uptime and performance.

Secure Patient Report Platform (2022)

Developed secure report delivery architecture on AWS using EC2, VPC, SNS for reliable patient communication.
